Shower Trays

Specifications

- 50mm low profile trays
- Conventional deep cavity trays
- Cast impervious hygienic material
- Textured surface to floor area of tray
- Shower trays are finished with a Polyester Gelcoat
- Microban antibacterial finish is available as an option
- 90mm waste aperture
- Comprehensive range of standard sizes
- Bespoke sizes available priced on application
- Square, oblong, quadrant and neo angle available

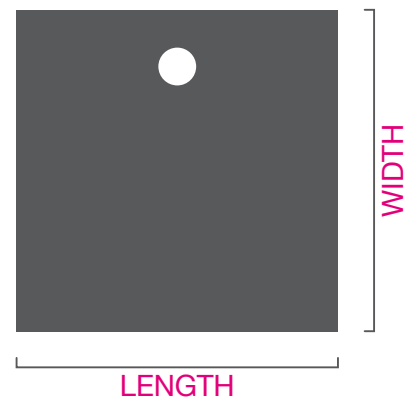

Features & Benefits

- Versital® is impervious to soaps, detergents and body fats
- Available in a vast colour palette including marble, granite, reflect & solid colour finishes
- Warm to the touch
- The Gelcoat finish is impervious to stains. Most other solid surface materials lack this protective layer (allowing stains to penetrate the surface)
- Available in 28 different shapes and sizes
- Available in a varied colour palette
- Available in bespoke sizes on request
- Hygienic and easy to clean

Range/Sizes

Waste position will vary according to tray shape and size.

Available in sizes from 760mm upto 1700mm. Full specifications are available.
