

 01204 380780

Specifications

All worktops are 20mm thick plus edge detail

Vanity tops with or without an integral basin (oval) 470x320

Vanity tops can be cast with cast cuts for any undermounted ceramic basin

Versital® is finished with a Polyester Gelcoat

Microban antibacterial finish is available as an option

Integral or loose upstand available at 100mm

Versital® vanity tops made to templates to suit all leading furniture manufacturers units

Range of tap controls available

Features & Benefits

Versital® is impervious to soaps, detergents and body fats

The Gelcoat finish is impervious to stains. Most other solid surface materials lack this protective layer allowing stains to penetrate the surface

Available to personal specifications

Available oversized for cutting/ scribing onsite. Versital is cut using ordinary woodworking tools

Available in a varied colour palette

Can be cut onsite for inset basins

No need to template at the end of installation, order oversized and trim onsite

Hygienic and easy to clean
