Reception Desks**

## Specifications

All worktops are 20mm thick plus edge detail

Versital is finished with a Polyester Gelcoat

Microban antibacterial finish is available as an option

Versital tops can be made to templates to suit your existing carcass.

Choice of edge profiles available

## Features & Benefits

Versital is impervious to soaps, detergents and is scratch resistant.

The Gelcoat finish is impervious to stains. Most other solid surface materials lack this protective layer allowing stains to penetrate the surface

Available to personal specifications

Available oversized for cutting/ scribing onsite. Versital is cut using ordinary woodworking tools

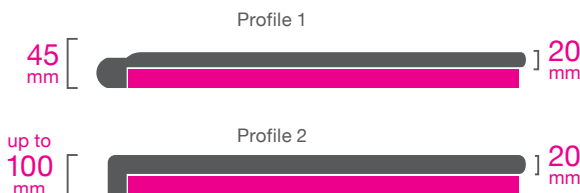

Available in a varied colour palette including RAL solid colours.

Corporate colours available

No need to template at the end of installation, order oversized and trim onsite

Hygienic and easy to clean

## Edge Profiles

Other edge details are available on request

## Range/Sizes

Available in up to 3000mm lengths. Larger tops are available to be jointed on site.
