Bespoke Shower Trays

High quality stone resin shower trays are available manufactured to exact specifications, including the shape as well as dimensions.

- Made to measure shower trays are often the ideal solution for bathrooms of odd shapes and sizes, or where space is at a premium. They are also the ideal solution for creating a large shower, or wetroom style bathroom.
- Bespoke shower trays can often be the easiest and most cost effective way to fix pre-existing issues in shower areas and wetrooms.
- Bespoke shower trays are available in the full range of Versital colour options, including granite, marble and sparkle finishes.
- Available up to 3 metres in length.

Gritstone

High-quality stone resin shower panels – ideal for shower areas.

- Perfect for cladding wall or wet area in the bathroom. Use in showers, to surround baths and behind sinks to protect from splashes.
- Versital panels are ideal used in conjunction with versital stone resin shower trays. Choose either a standard or bespoke size for the easy way to create a wetroom.
- Unlike tiling that requires grouting which can stain, Versital panels do not need any grouting at all! Simply apply sanitary grade silicon to the rear of the panel to fit, and around the edges for a final clean seal.
- Panels can be butt-jointed for a clean look, or choose corner trim or dado from the accessory range to finish the bathroom beautifully.
- 100% waterproof and stain resistant.
- Available in the full-range of colour options, including granite, marble and sparkle finishes.
- Panels are available to personal specifications in lengths of up to 3 meters.

100% waterproof and stain resistant

Botticino

Vanity Tops

High-quality stone resin vanity tops in a huge range of finishes, including marble, granite and sparkle.

- Ideal when used in conjunction with your preferred bathroom cabinetry, or as a sink or bath surround.
- Vanity tops can also be used elsewhere in the home, including dressing table areas and window cills.
- Tops are manufactured ready-to-install, but can be cut on site using ordinary wood-working tools when fitting top mounted basins or tap wear.
- Manufactured to personal specifications up to 3000mm long.

Under-mounted Integral Tops and Basins

Basin Options

- Undermounted Basin:** Vanity tops available with high-quality white porcelain basin pre-fitted.
- Integral Basins:** We have a number of different integral bowl options of various shapes and sizes to suit your bathroom and preferred furniture. These include oval, square and oblong.
- Multiple Basins:** More than one basin per top is available for both integral and undermounted basins. Internal polished rims can also be specified for us to manufacture for use with your own preferred under-mounted basin.

Finishing Items

Solid stone resin extra's for the finishing touch to any fitted bathroom.

- Like the rest of the Versital product range the finishing accessories are 100% waterproof and stain resistant, making them ideal to store a range of bathroom products, soaps, shampoos and so on.
- Available in the full range of colour options, including granite, marble and sparkle finishes.

Soap and shampoo holders

- Corner soap and shampoo holder – ideal used in conjunction with corner trim moulding.
- Shampoo bottle recess. This should be recessed into a panel and supported at the back.

Skirting, plinth and dado

These strips are available in 3 widths and 3000mm in length. They are ideal for the following applications:

- Surrounding doorways and finishing shower entrance.
- As a plinth to finish the bathroom and furniture.
- Skirting in place of painted boards you, might ordinarily use. Unlike painted boards, Versital resists scuff marks and is waterproof. It can easily be cleaned; will not 'blow' with water and marks can simply be wiped away.

Corner trim

- Corner trim is curved and available in 3 widths and 2400mm in length.
- Ideal used in shower corners to cover panel joints.

Choose from the following accessories:

Skirting, Plinth & Dado

Available in over 90 different marble, granite and sparkle colours!

Commercial Washrooms & Bathrooms

Versital solid surface products are ideal for commercial washrooms and bathrooms, and especially in high-traffic areas where hygiene is key.

- ✓ Made-to-measure vanity tops available with multiple bowls.
- ✓ Integral and under-mounted washbasins available in both single and multiple numbers.
- ✓ Versital paneling is ideal to be used for splashbacks, decorative areas and shower areas.
- ✓ Large range of standard and bespoke shower trays with certified slip-resistant base suitable for commercial use.
- ✓ Full range of true-to-life marble and granite finishes available, as well as the entire RAL colour palette.

Suitable for:

- ✓ Hotel and Leisure
- ✓ Gym's and Health Clubs
- ✓ Public Washrooms
- ✓ Dental practices and Health Authorities.

Answers to frequently asked questions

- ✓ In day-to-day use, wipe dust off with a fine cloth and use a soft cloth and mild surface cleanser. Avoid harsh chemicals as they are unnecessary.
- ✓ Versital is ideal used as shower panels, or anywhere that water is likely to splash. Unlike natural marbles and granites, Versital does not suffer from watermarks and is exceptionally stain and scratch resistant.
- ✓ Versital can manufacture vanity tops to your specifications if you are in need of an odd shape or size. It might be recommended to manufacture from a template. Call us on 01204 380780 for advice.
- ✓ If a standard sized shower tray doesn't fit, we can make a bespoke shower tray to your exact shape and size requirements. Visit the website for a personalised quotation www.versital.co.uk or call us direct on 01204 380780.
- ✓ When fitting Versital it is very important that you only use Sanitary grade silicon. DO NOT use liquid nails or other 'instant' type adhesives. We can supply silicon with your order if requested.
- ✓ Versital can be fixed to most surfaces, including plasterboard, plywood, plasters, tiles and so on. It can be fixed onto stud-work that is clad in one of the materials listed.
- ✓ Before fitting Versital, ensure all surfaces are free from grease, dust and grime. Back surfaces only should be cleaned with acetone and be perfectly dry before silicon is applied.

There is no such thing as a stupid or silly question, should you have any at all don't hesitate to contact us. We will be very pleased to help in any way that we can!

Do take the time to visit our website – not only a wealth of information and opportunities to buy, but a great inspiration too!
